

## **The University of Gloucestershire – Community Engagement and Governance**

This qualification is designed to improve governance, partnership working and community engagement helping to create more sustainable communities. The course helps students to appreciate sound management, partnership working, planning and the roles and responsibilities of stakeholders, legal and political aspects of community governance, as well as ideas for strategic planning and service delivery.

This may be taken as a Foundation Degree or a Certificate in Higher Education. It is a long distance learning course with various modules which maybe taken over a number of years to fit in with your professional commitments.
