REDUCING HEALTHCARE INEQUALITIES

The Core20PLUS5 approach is designed to support Integrated Care Systems to drive targeted action in health inequalities improvement

CORE20
The most deprived 20% of the national population as identified by the Index of Multiple Deprivation

20%

Target population

CORE20 PLUS 5

PLUS
ICS-chosen population groups experiencing poorer-than-average health access, experience and/or outcomes, who may not be captured within the Core20 alone and would benefit from a tailored healthcare approach e.g. inclusion health groups

Key clinical areas of health inequalities

SEVERE MENTAL ILLNESS (SMI)
ensuring annual health checks for 60% of those living with SMI (Bringing SMI in line with the success seen in Learning Disabilities)

CHRONIC RESPIRATORY DISEASE
a clear focus on Chronic Obstructive Pulmonary Disease (COPD), driving up uptake of Covid, Flu and Pneumonia vaccines to reduce infective exacerbations and emergency hospital admissions due to those exacerbations

EARLY CANCER DIAGNOSIS
75% of cases diagnosed at stage 1 or 2 by 2028

HYPERTENSION

THE WIDER DETERMINANTS OF HEALTH

OUR HEALTH BEHAVIOURS AND LIFESTYLES

AN INTEGRATED HEALTH & CARE SYSTEM

THE PLACES & COMMUNITIES WE LIVE IN & WITH

Integrated care is a huge opportunity

- Integrated Care Systems are here to work together to plan and coordinate services so to make sure everyone gets the best care possible and can live happier, healthier lives.
- They enable us to take a broad view of what makes us happy and healthy

The ICS Vision and Priorities

'We will enable people across Coventry and Warwickshire to start well, live well and age well, promote independence, and put people at the heart of everything we do'

Improve outcomes in population health and health care

Tackle inequalities in outcomes, experience and access to services

Enhance productivity and value for money

Help the NHS support broader social and economic development

The health and care system will contribute to delivering this by...

1. Prioritising prevention and improving future health outcomes through tackling health inequalities

2. Improving access to health and care services and increasing trust and confidence

3. Tackling immediate system pressures and improving resilience

Enabled by...

4. Creating the conditions for change to happen

5. Transforming our system

Context

The Health and Social Care Act 2022 and statutory guidance sets out a clear intention of a more joined-up approach to health and care built on collaborative relations; using collective resources of the local system, NHS, local authorities, the voluntary and community sector and others to improve the health of local areas.

- Different communities may need different services or approaches to health and social care
- Help decision makers learn about your communities (health)
- Local rural community hubs are often village halls, pubs and village shop

Town and Parish Councils play a key role in enabling localised and rural communities thrive

What would the residents in your communities tell us?
